The player scores each time a ball is caught, using buttons to guide the catching device. The payout is based upon the percentage of balls caught within the time allotted.

- 2.) Payout must occur immediately in the form of prizes, tokens and/or tickets.
- 3.) Game shall be installed and maintained according to manufacturer specifications.
- 4.) The ball catcher speed shall remain at the default setting.
- 5.) The game playing field shall be clean and free of debris.

This certification is not a license to operate the captioned gambling device. The device may only be operated in a location specifically approved for the operation of amusement games pursuant to the Law and Regulations.
